*David Welton, a neighbor, a Cardiologist and a Photographer, visited Paradise Found Fiber Farm on two separate occasions during the winter of 2010.*

*His first visit, which occurred in February, resulted in the following wonderful photos of our critter kingdom, as well as a number of photos of Mary providing a Spinning demo.*

- The second visit, which occurred in March during a Pygora shearing demo, can also be accessed on the Resource and Photo Gallery pages.*

*You can see more of David's work on the Clinton Chamber of Commerce website:
